

Students Should Have Longer Recess

Nowadays, students only have 15 minutes for recesses. They do not have enough time to relax so they feel very stressed in school. In my opinion, students should have longer recess.

Firstly, I need longer recess to play with my friends. We can play hide-and-seek, board games and the piano together.

Secondly, I can do relaxing things like going to the bathroom, reading books and eating snacks. If I have longer recess, I will feel more relaxed.

In my opinion, students should have longer recess to play with their friends and do more relaxing things.
