

Students Should Have More Pocket Money

5E (7) Ho Hiu Tung, Ella

Nowadays, primary students have very little or even no pocket money. In my opinion, students should have more pocket money.

Firstly, I need more money to buy stationery. Stationery like rulers, erasers and pencils are needed everyday in school. If I have extras, I can share with my friends or even give them to my best friends. They will be very happy.

Secondly, students need a lot of stationery at home to do their homework and draw pictures. If there are a lot of stationery to choose from, they will be happy.

In my opinion, students should have more pocket money to buy stationery.
