

Celebrating Chinese New Year

I had a delightful Chinese New Year. I liked it very much. I ate a lot of food. I also visited my relatives and got many red packets.

Before Chinese New Year, I went to the flower market with my family. We saw several flowers which were beautiful. I felt very surprised because it was very crowded. Although there weren't many things to buy, we bought some yummy snacks. We also bought some sugar-coated haws there. They were as sweet as sugar.

On Chinese New Year's Eve, we went to my grandma's home to have a reunion dinner. My grandma cooked many dishes. They were yummy. After the reunion dinner, I played Chinese chess with my uncle. Although I lost in the game, I improved a lot!

On the first day of Chinese New Year, my father's friends came to my home. We played some games and had our dinner in a restaurant. I felt very happy because I ate rice cakes. I also ate turnips cakes made by my mum. I watched the fireworks too. I love Chinese New Year very much!
